

## REPORT ON FIELD TRIP

Submitted by the students of Zoology Department, Bilasipara College

On

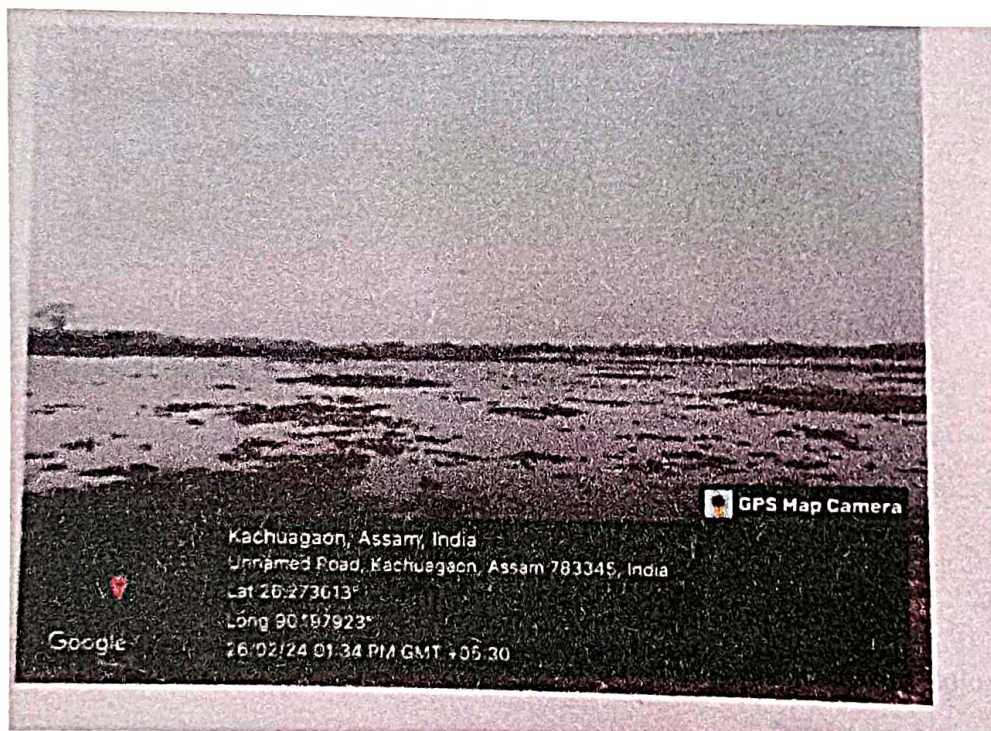

" Study on Indigenous Fish Diversity of Kachua Beel"

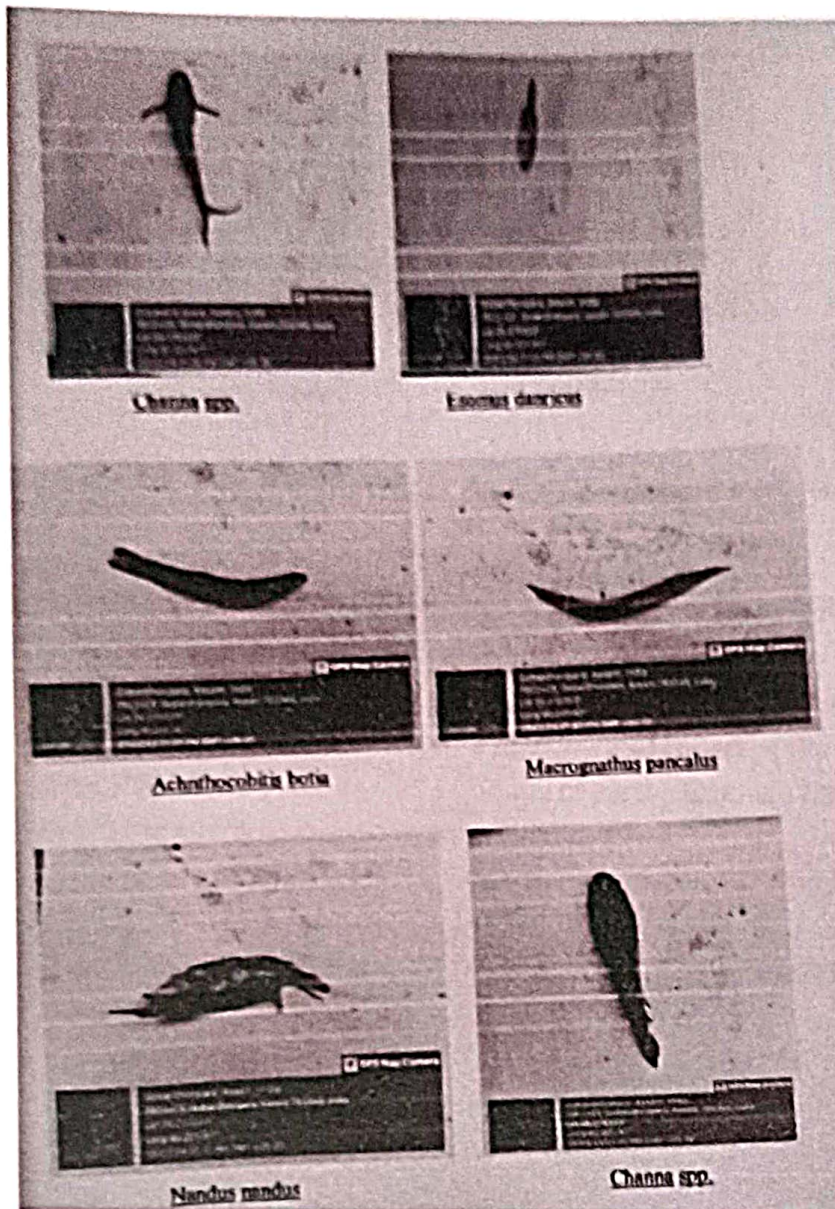

Date : 26.02.2024

Place : kachua beel

Field trip Organized by the Department of Zoology in collaboration with IQAC Bilasipara College.

Through this field trip we taught and gain the knowledge how many different types of local fishes are found in this locality beels. As local fish are declined day by day in the market and approximately entire market is covered by exotic fishes. Wetlands are the good source to conserve this indigenous diversity of the fishes. At a time we also conserve the wetlands which is the habitat of these indigenous fishes as well as kidney of earth. Although this trip is local in nature but is related to the global conservative issues and concern.
