Report on the ICPR National Seminar on
Problems and Solutions of Applied Ethics in the 21st Century with Special Reference to North-East India

Venue: Dr. B.H. Hall, Bilasipara College, Dhubri, Assam
Date: 21st – 23rd February 2022
Organized by: Department of Philosophy, Bilasipara College and IQAC, Bilasipara College

Introduction:

The National Seminar on "Problems and Solutions of Applied Ethics in the 21st Century with Special Reference to North-East India" was successfully organized by the Department of Philosophy, Bilasipara College, in collaboration with the Internal Quality Assurance Cell (IQAC) of Bilasipara College. The event aimed to explore the ethical challenges and their possible resolutions in contemporary society, particularly in the context of North-East India.

Inaugural Session:

The seminar commenced with an inaugural session presided over by the Principal of Bilasipara College, along with esteemed guests, including academicians, researchers, and students from various institutions. The keynote address was delivered by a distinguished scholar, highlighting the significance of applied ethics in modern times and its impact on social, cultural, and economic dimensions in North-East India.

Key Themes Discussed:

The seminar was divided into multiple sessions where eminent speakers presented their research and insights on various aspects of applied ethics. The major themes included:

1. **Ethical Challenges in Contemporary Society** – Issues related to moral dilemmas in politics, business, and technology were discussed.
2. **Environmental Ethics and Sustainability** – The need for sustainable development and ethical environmental practices was emphasized.
3. **Medical and Bioethics** – The ethical concerns in healthcare, euthanasia, and genetic engineering were explored.
4. **Human Rights and Social Justice** – Discussions revolved around the ethical aspects of human rights violations, gender equality, and justice.
5. **Cultural and Indigenous Ethics in North-East India** – The traditional ethical values of indigenous communities and their relevance in modern society were highlighted.

Problems Identified:

The discussions revealed several pressing ethical issues in the 21st century, including:

- The growing influence of technology and artificial intelligence on moral decision-making.
- Environmental degradation due to unethical industrial practices.

- Ethical concerns in the medical field, such as organ transplantation and euthanasia.
- Violation of human rights, particularly concerning marginalized communities in North-East India.
- The erosion of traditional ethical values due to globalization.

Proposed Solutions:

The seminar proposed various solutions to address these ethical challenges:

- Promoting ethical awareness and education at all levels.
- Implementing strict policies and laws to ensure ethical practices in industries and governance.
- Encouraging research in applied ethics to develop context-specific solutions.
- Strengthening cultural values and indigenous ethical traditions.
- Enhancing cooperation between governmental and non-governmental organizations to address ethical issues effectively.

Conclusion:

The three-day seminar successfully provided a platform for scholars, students, and professionals to engage in meaningful discussions on applied ethics. The insights and solutions presented during the sessions underscored the importance of ethical considerations in shaping a just and sustainable society. The organizing committee expressed gratitude to all participants and emphasized the need for continued dialogue and research in this critical field.

Acknowledgments:

The Department of Philosophy and IQAC, Bilasipara College, extend their sincere thanks to all the dignitaries, resource persons, participants, and organizing members for making this seminar a grand success. Special appreciation was given to the volunteers and students whose dedication contributed to the smooth execution of the event.
