

Report on Plantation Programme Organized by NSS Unit, Bilasipara College

Date: 30th September 2022

Venue: Bilasipara College Campus

Organized by: NSS Unit, Bilasipara College, Dhubri, Assam

Introduction:

The NSS Unit of Bilasipara College organized a Plantation Programme on 30th September 2022 at the college campus. The initiative aimed to promote environmental awareness, encourage afforestation, and enhance the green cover within the college premises. The programme emphasized the importance of trees in sustaining life and mitigating environmental issues such as pollution and climate change.

Objectives:

1. To create awareness about the importance of trees and environmental conservation.
2. To improve the greenery of the college campus.
3. To encourage students and faculty members to actively participate in ecological sustainability.
4. To contribute to the reduction of carbon footprint and improve air quality.

Participation:

The event witnessed enthusiastic participation from students, faculty members, and NSS volunteers. The Principal of Bilasipara College, along with the NSS Programme Officer, faculty members, and students, actively took part in the plantation drive. The local administration and environmental activists were also invited to share their insights on sustainable living and ecological balance.

Activities Conducted:

1. **Plantation Drive:** A variety of saplings, including medicinal, fruit-bearing, and shade-providing trees, were planted across the campus.
2. **Awareness Session:** Environmental experts and faculty members delivered informative talks on the benefits of afforestation and the role of students in environmental conservation.
3. **Tree Adoption Programme:** Students volunteered to take responsibility for nurturing and maintaining the saplings planted during the event.
4. **Cleanliness Drive:** Alongside the plantation, participants engaged in cleaning the surroundings to maintain a healthy and hygienic environment.

Outcome:

The Plantation Programme successfully instilled a sense of responsibility among students and faculty members regarding environmental conservation. The event led to the planting of a significant number of trees, contributing to the enhancement of the college's natural beauty and ecological balance. Additionally, it fostered a culture of sustainability and community involvement in environmental protection efforts.

Conclusion:

The Plantation Programme organized by the NSS Unit of Bilasipara College was a commendable effort towards environmental sustainability. The event highlighted the necessity of tree plantation and inspired students to take proactive steps in conserving nature. Such initiatives should be conducted regularly to ensure a greener and healthier environment for future generations.

Recommendations:

- Organizing similar plantation drives at regular intervals.
- Encouraging student-led environmental initiatives.
- Collaborating with environmental organizations for further ecological projects.

The programme concluded with a vote of thanks, expressing gratitude to all participants and stakeholders for their contributions toward making the event a success.
